this new printing is not a newly revised edition only an enlarged one the revised edition of 1957 remains intact except that its short introduction has been greatly expanded to appear here as chapters i and ii the only other changes are technical and minor ones the correction of typographical errors and amended indexes of subjects and names

an upper division undergraduate social theory textbook that introduces the student to the multitude of different theorists this book helps students grasp theories and their relevance and application to modern life

this second edition of patrick baert s widely acclaimed social theory in the twentieth century has been brought right up to date with cutting edge developments in social theory today it offers an easy to read but provocative account of the development of social theory covering a range of key figures and classic schools of thought the authors also bridge the gap between philosophy and social theory locating the theoretical views of individuals such as giddens foucault and habermas within wider historical traditions

a very substantial and reliable introduction to social theory imaginatively written and extremely readable the new edition contains three valuable additional chapters william outhwaite professor of sociology university of sussex uk the long anticipated second edition of this original and approachable text examines social theory in the context of its traditions and historical development and explores its contemporary relevance in explaining society and understanding social relations the text has been substantially revised and includes three new chapters two of which depict theory in action and a new conclusion may and powell have also added new material on both emotion and globalisation situating social theory begins by charting the history of social theory examining its development in terms of the enlightenment project and the cultural and intellectual contexts in which theorists worked and constructed their ideas it goes on to critically examine traditions in social thought including hermeneutics phenomenology pragmatism critical theory structuralism actor network theory systems theory and feminisms in outlining the main ideas behind these traditions the form and content of modern social theory is situated within its historical roots enabling the reader to actively explore the arguments and reflect upon their strengths and weaknesses throughout the book the relationships between agency the social self and social structure provide a thematic coherence there is a comprehensive bibliography that will help the reader to explore theories of particular interest in greater depth situating social theory is an invaluable text for intermediate undergraduate courses within sociology and the wider social sciences and provides an essential source of reference for advanced undergraduates and postgraduate researchers

social theory has undergone dramatic changes over the past fifteen years the aim of this book is to provide a comprehensive survey of those changes and an authoritative statement on current trends of development in social thought the contents of the book range in a systematic way across the major traditions of social theory prominent today among the topics covered are the relationships between modern social theory and the classics of the late eighteenth and nineteenth centuries the connections between social theory and mathematical social science and the logical status of generalizations in the social sciences traditions of thought discussed include behaviourism symbolic interactionism parsonian theory analytical theory structuralism and post structuralism ethnomethodology structuration theory world systems theory marxism and critical theory

social theory is the theoretical core of the social sciences clearly distinguishable from political theory and cultural analysis this book offers a unique overview of the

development of social theory from the end of the second world war in 1945 to the present day spanning the literature in english french and german it provides an excellent background to the most important social theorists and theories in contemporary sociological thought with crisp summaries of the main books arguments and controversies it also deals with newly emerging schools from rational choice to symbolic interactionism with new ambitious approaches habermas luhmann giddens bourdieu structuralism and antistructuralism critical revisions of modernization theory feminism and neopragmatism written by two of the world s leading sociologists and based on their extensive academic teaching this unrivalled work is ideal both for students in the social sciences and humanities and for anyone interested in contemporary theoretical debates

foundations of social theory a critical introduction accessibly introduces students to classical and contemporary social theory exploring the foundational theories which shape the discipline while also engaging critically with their contribution and presenting the more progressive and contemporary theorists in dialogue with canonical figures social theory is introduced as the construction and connection of concepts which make social inquiry possible while appreciating that the study of society is never truly objective the relationship between positionality politics research and knowledge production is discussed and ideas from critical theorists feminist theorists and decolonial and critical race theorists are foregrounded travelling chronologically and thematically from the birth of the discipline and the work of marx weber and durkheim through to intersectionality queer theory and decolonial and postcolonial theory this book gives students a strong foundation in the broad field of social theory while also encouraging them to think critically about the theories and theorists presented equipped with end of chapter questions and further reading this book will be essential reading for any student studying social theory for the first time

this revised edition of pip jones s extremely popular introduction to social theory now benefiting from the collaboration of shaun le boutillier and liz bradbury has been carefully and thoroughly updated with the latest developments in this continually changing field written in a refreshingly lucid and engaging style introducing social theory provides readers with a wide ranging well organized and thematic introduction to all the major thinkers issues and debates in classical and contemporary social theory introducing social theory traces the development of social theorizing from the classical ideas about modernity of durkheim marx and weber right up to a uniquely accessible review of contemporary theoretical controversies in sociology surrounding post modernity and reflexive sociology with great clarity the authors explain the ideas of seminal thinkers such as foucault bauman habermas beck bourdieu and giddens as well as paying increased attention to other important contributions from theorists such as margaret archer fredric jameson and george ritzer introducing social theory is the ideal textbook for students at all levels taking courses in sociology from a level students to undergraduates who are looking to engage with social theory remarkably easy to follow and understand the new edition lives up to its predecessor s goal that students need never be intimidated by social theory again

the second edition of classical and contemporary social theory provides wraparound coverage of the classical social theorists and influential sociological schools of thought in the contemporary period explained carefully and clearly throughout tim delaney reviews the key concepts and contributions from brilliant classical social thinkers and recent sociological thought spanning over 500 years of source material he weaves together profiles of leading theorists thorough descriptions of major academic and intellectual perspectives and discussion of prevailing themes of interest that have concerned theorists and sociologists throughout time and will likely continue to do so in the future the book emphasizes methods of investigation and application in its overview of the field by challenging readers to think about problems critically and in relation to key sociological theories and to also apply their sociological understanding to real everyday events in this new edition delaney revisits the classical period and highlights the special contributions of american social theorists and their impact on the diversity of thought leading into the contemporary era he attends to later schools of thought and weaves in important updates related to critical race theory and globalization with updated context and further applications the second edition of classical and contemporary social theory is a perfect addition to combined courses in social theory

treating social theory as an exciting intellectual journey in its own right this new introductory level textbook presents the key ideas and concepts in social theory together with an account of the intellectual background from which they emerged aimed at first year undergraduates studying sociology and all related disciplines in the social sciences and humanities it provides an introduction to the major questions and debates facing social theorists and sociologists clearly designed presentation and layout features help readers navigate their way around the material thus giving them the best chance of finding what they need quickly and easily the book is supported by a companion website containing additional materials for both students and lecturers using the book which is available from the link above

social theory its origins history and contemporary relevance analyzes the tradition of social theory in terms of its origins and changes in kind of societies rossides provides a full discussion of the sociohistorical environments that generated western social theory with a focus on the contemporary modern world while employing a sociology of knowledge approach that identifies theories as aristocratic versus democratic liberal versus socialist and also liberal feminist versus radical feminist it attempts to construct a scientific unified social theory in the west additionally it also features african american theory american culture studies political and legal philosophy and environmental theory

textbook on contemporary social thought

providing a concise and comprehensive introduction to both classical and contemporary social thought this volume makes social theory and social theorists accessible and meaningful

this book is an indispensable resource for anyone interested in the roots current debates and future development of social theory it draws together a team of outstanding international scholars and presents an authoritative and panoramic critical survey of the field the volume is divided into three parts the first part examines the classical tradition included here are critical discussions of comte spencer marx durkheim weber simmel mead freud mannheim and classical feminist thought this part conveys the classical tradition as a living resource in social theory it demonstrates not only the critical significance of classical writings but their continuing relevance the second part moves on to examine the terrain of contemporary social theory the contributions discuss the significance and strengths and weaknesses of structural functionalism recent marxian theory critical theory symbolic interactionism phenomenology ethnomethodology exchange theory rational choice contemporary feminism multiculturalism postmodernism the thought of foucault and habermas and figural sociology the reader gains a comprehensive and informed picture of the key issues and central figures of the day the final part ranges over the key debates in current social theory questions relating to positivism metatheorizing cultural studies consumption sexualities the body globalism nationalism socialism knowledge societies ethics and morality as well as post social relations are fully discussed the dilemmas and promise of contemporary social theory are revealed with pinpoint accuracy

combining principles of individual rational choice with a sociological conception of collective action james coleman recasts social theory in a bold new way the result is a landmark in sociological theory capable of describing both stability and change in social systems this book provides for the first time a sound theoretical foundation for linking the behavior of individuals to organizational behavior and then to society as a whole the power of the theory is especially apparent when coleman analyzes corporate actors such as large corporations and trade unions he examines the creation of these institutions collective decision making and the processes through which authority is revoked in revolts and revolutions coleman discusses the problems of holding institutions responsible for their actions as well as their incompatibility with the family he also provides a simple mathematical analysis corresponding to and carrying further the verbal formulations of the theory finally he generates research techniques that will permit quantitative testing of the theory from a simple unified conceptual structure coleman derives through elegant chains of reasoning an encompassing theory of society it promises to be the most important contribution to social theory since the publication of talcott parsons structure of social action in 1936

a significant contribution to the development of social theory which provides a comprehensive summary of the various traditions barnes offers an accessible introduction for undergraduates which presents his own arguments along the way it is intended that this work will be adopted on undergraduate and postgraduate courses on social theory within social and political science it will also appeal to students of social psychology social anthropology and social geography

this textbook delivers a new thematic introduction to social theory that explores theoretical issues in their contemporary social contexts each chapter is devoted to a

specific thematic area including the state governance the economy civil society culture language knowledge the self emotions the body and social justice each chapter details the key issues for debate and the relevant theories while linking those debates and theories to everyday life distributed throughout the chapters are focused sections on key concepts and their research applications alongside helpful additional detail including a glossary further suggested readings chapter summaries and questions for discussion the book also provides useful information on key theoretical movements such as feminism marxism and post structuralism as well as biographies of key theorists as such it reflects the breadth of social theory and its interdisciplinary nature by drawing on thinkers not just from sociology but also from philosophy history literature geography cultural and gender studies the book's logical structure and clear pedagogical features make it an appealing and accessible introductory text for students new to social theory the chapters demonstrate the relevance of social theory to everyday life such that readers can understand and actively engage with key concepts

roger sibeon's distinctive new book forms part of a movement towards what many others have referred to as the return to sociological theory and method offering both description and critique of contemporary theoretical and illustrative empirical materials the goal of this book is a renewal of sociology and social theory that will facilitate worthwhile social knowledge that contributes to an understanding of the practical problems of making sense of social theory

the landscape of social theory has changed significantly over the three decades since the publication of anthony giddens and jonathan turner's seminal social theory today sociologists in the twenty first century desperately need a new agenda centered around central questions of social theory in social theory now claudio e benzecri monika krause and isaac ariail reed set a new course for sociologists bringing together contributions from the most distinctive sociological traditions in an ambitious survey of where social theory is today and where it might be going the book provides a strategic window onto social theory based on current research examining trends in classical traditions and the cutting edge of more recent approaches from distinctive theoretical positions contributors address questions about how social order is accomplished the role of materiality practice and meaning as well as the conditions for the knowledge of the social world the theoretical traditions presented include cultural sociology microsociologies world system theory and post colonial theory gender and feminism actor network and network theory systems theory field theory rational choice poststructuralism pragmatism and the sociology of conventions each chapter introduces a tradition and presents an agenda for further theoretical development social theory now is an essential tool for sociologists it will be central to the discussion and teaching of contemporary social theory for years to come

the second edition of this remarkably lucid text provides a wide ranging historical introduction to social theory the new edition preserves and further enhances the book's striking qualities its clarity reliability comprehensiveness and scholarship the theorists treated include montesquieu adam smith and the scottish

enlightenment hegel marx tocqueville maistre gobineau darwin spencer kautsky nietzsche durkheim weber simmel freud lukacs gramsci heidegger keynes hayek parsons the frankfurt school levi strauss althusser foucault habermas Bourdieu Beck and Giddens Callinicos examines the ways in which social theory grew out of the eighteenth century enlightenment a time when societies emerging in the west ceased to invoke the authority of tradition to validate themselves instead looking to scientific knowledge to justify their mastery of the world he traces social theory's connections with central themes in modern philosophy with the development of political economy and with the impact of evolutionary biology on social thought the book has been carefully updated to ensure that it engages with the most up to date debates in social theory and concludes with a substantial new chapter here Callinicos assesses the significance of contemporary debates about globalization including the recent re-emergence of critiques of capitalism and imperialism in the work of Michael Hardt Toni Negri Luc Boltanski Eve Chiapello David Harvey Robert Brenner Giovanni Arrighi and Slavoj Žižek this updated version of a widely praised text will be essential reading for students of politics sociology and social and political thought
